

**Approved 4/6/11**  
**TOWN OF WEST TISBURY**  
**SELECTMEN – HISTORIC DISTRICT COMMITTEE (HDC) MEETING**  
**Monday, March 28, 2011, 5:40 p.m. – 6:10 p.m.**

**Present:** Selectmen Richard Knabel, Skipper Manter, Cindy Mitchell, Jennifer Rand.

**HDC:** Annie Fisher, Mark Mazer, Ben Moore, Sean Conley

**Proposed Sidewalk in Front of Garcia's:** The Board of Selectmen asked the HDC what they would like to see for material for the proposed sidewalk should it pass at Town Meeting. Annie said she thought brick would look nice as it would match the church sidewalk. Mark agreed. Skipper noted that the sidewalks in town historically had been asphalt. Additionally he was concerned about maintenance – primarily shoveling the brick. Ben said it was possible the church might shovel the entire walk as their people park the length of that area. The HDC voted to approve the brick as a surface choice, the Board will still need to file a formal application for the sidewalk. Jen was asked to inquire about the type of brick proposed to assure it will hold up well.

**Rocks in Front of Town Hall:** Jen said she had asked Carlos Montoya for help selecting plants to replace the rocks in front of town hall. He expressed concern about the maintenance of the plants and suggested granite posts instead. The HDC and the Board discussed this and decided a combination of both would look nice. If in time the plants don't last they can be removed. The Board will present a formal application to the HDC in April.
